The term embassy refers to the official residence or office of an ambassador in another country. The ambassador is a diplomat who is appointed by the President and sent to another country as a permanent or temporary representative of a given country. In international relations, the piece of land in which the embassy of a country is situated is usually considered as the country of the ambassador's origin. The embassy performs several important functions. They include strengthening diplomatic relations and cooperation and protecting, defending and representing the nation's economic and social interests. Other duties of an embassy are issuing visas and other travelling documents to the citizens of a given country who are travelling to other countries. For, example, the Egyptian Embassy in Tanzania issues visas to Tanzanian citizens who want to travel to Egypt.
