

MESSAGE TO P.7 SOCIAL STUDIES TEACHERS 2024 (TOKYO)

Halo my fellow SST teachers;

As we approach PLE it's good for us to note that in this period you as a P7 tr you're able now to do the following:

- 1.Complete the syllabus.
- 2.Do as many sets as you can;among the sets you can make sure you give them PLE past papers to this will motivate them to see that PLE also has questions that can be passed.
- 3.Be able to make a marking guide of your own don't rely on printed marking guides.
- 4.Motivate weak candidates stop telling

them that they will fail.

5. Stop caining your candidates you're making it worse! if cains didn't work in first and second term and what if you hurt/break their hands or arms they will use to do PLE !! you will be imprisoned 🤔🤔 remember beating is a corporal punishment

6. If you have time takers in your class encourage them to deal with simple questions only. Comprehension questions won't help them deal with knowledge questions

7. Revise map work alone coz some candidates fear diagrams and encourage them.

8. Buy or photocopy exams on white

papers in order for candidates to get used to them because some fear white paper.

9. Always be present until PLE because these children need you than ever!

10. Have meeting with individuals to listen to their challenges in their performances.
