GEOGRAPHY

PAPER 1

2 HRS 30Mins

JOURNEY OF SUCCESS EXAMINATIONS BOARD

Uganda lower secondary certificate of education

PRE-MOCK ASSESSMENTS

Geography paper 1

INSTRUCTIONS

- Attempt only four(4) items in All
- Items 1 and 2 of section A are COMPULSORY
- In Section B, Choose one question from part 1 and one question from part 2.
- Credit will be given for use of relevant examples and diagrams studied.

SECTION A. COMPULSORY

Item 1. Mapwork and Map reading.

Refer to the East Africa 1:50000(UGANDA) map extract of Bulisa Series Y732, Sheet 29/4, Edition 3-U.S.D to respond to the tasks that follow.

Wazamwe is a resident of Kyamulira and a student at Kampala International University pursuing Bachelors degree in Statistics. She recently applied for a job to work as enumerator in the National Population and Housing Census because she wanted to get money in order to establish coffee plantations and animal farms. She had requested the local government to allow her utilize the Northern part of Bulisa, she however faced a lot of resistance from the local community members and therefore the local community chairperson decided to organize a meeting with her on behalf of the local population. Although she faced a lot of resistance she decided to continue with the Census activities. On her first day of enumerating, she started her work from the road junction at Bulisa and moved 4 kilometers South East at an angle of 100° while enumerating. Because she was new in the place, she lost her way back to Bulisa road junction where she was meant to spend a night.

Task

- a) Help Wazamwe to relocate the place where she was meant to spend a night.
- b) Make a written presentation to be used by the local community chairperson in the meeting.

Item 2. Photographic Interpretation

Study the photograph taken from one of the places in Uganda, and the text provided below it.

Following the discovery of oil in the Albertine region, the government of Uganda together with China National Offshore oil Corporation and Total Energies Limited have embarked on oil mining activities such as oil exploration, oil drilling among others. These activities are seen as a disgrace by community members as many are worried of the adverse effects of the activity. A meeting has been organized between local leaders and government officials to discuss the matters concerning worries of community members.

**Task**

- (a) Using relevant illustrations, mark and name the features found in the area shown in the photograph
- (b) Prepare a speech to be presented by the local leaders on behalf of local citizens in the meeting
- (c) What recommendations would you make to the government to ensure that local people's concerns are addressed?

SECTION B

Part 1. Choose only one question.

Item 3. Uganda is one of the East African Countries endowed with a number of landforms. A group of local people in Kasese attach the formation these landforms to their ancestral spirits. Hillary a student of S.4 from Journey Of Success High School went back to Kasese for holiday and informed his friends that the belief of the local people about the formation of the landforms is not true which the friends didn't agree with.

Task

Make a write up to help Hillary convince the friends.

Item 4. Your district has a number of drainage features. The government is encouraging the local people in the district to use them to improve on their lives. However the local people of your district have been unable to use them. As a geographer you have been invited in the symposium to sensitize the local community members on how they can use the different drainage features to improve on their ways of life.

Task

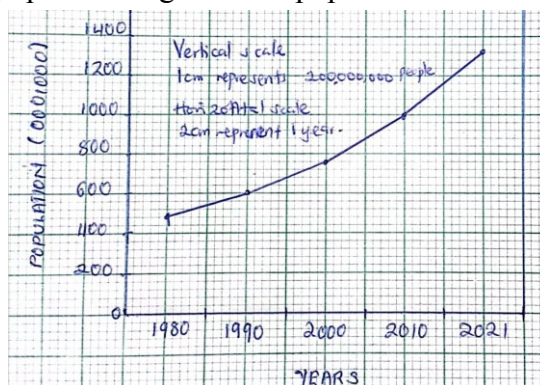

Prepare a written speech of about 500 words which you will present in the symposium.

Part 2. Choose only one question.

Item5.

Merinah and Specioza who are residents of Bwondah were listening to CBS radio station while eating food in restaurant and they heard on the radio that Africa has been experiencing rapid population growth compared to other continents and that if the population trend is left unattended to, there would be an outbreak of different adverse effects. Merina told Specioza that the population of Africa is increasing because of the increased number of tourists and the visitors who come to different African nations. Specioza replied and said no that is not right, they therefore had a disagreement over that.

A line graph showing Africa's population in different years

Task

- Make write up to help the two solve a disagreement.
- In your own opinion, how can the population trend be controlled?

Item 6. Research shows that Uganda's expenditures abroad in past years has always been over and above its Earnings from abroad. This has resulted into unfavorable Balance of Payment in Uganda. Members of your community are interested in finding away how they can help to improve the trend but lack the necessary information on how to do so.

Support material

Years	Expenditures abroad (000,000USD)	Earnings from abroad (000,000USD)
2001-2006	4,890,000	2,244,391
2007-2012	5,412,000	3439,210
2013-2018	6,413,200	4,123,410
2019-2024	7,803,340	4,989,800

Task

- Use a relevant illustration to show the information in the table.
- Write a paper advisory note to the local community on how they can contribute towards improving the trend.

END
